Burkholder earns energy/environmental accreditation in “green” design and construction

LANCASTER, Pa. – Scott Burkholder, a project manager for Horst Construction, has earned certification as a Leadership in Energy and Environmental Design (LEED) Accredited Professional from the U.S. Green Building Council. He also has been designated as a Green Advantage® Certified Practitioner by Green Advantage, the nationwide green-building environmental certification program for building contractors.

As a LEED AP and Green Advantage Certified Practitioner, Burkholder has demonstrated a thorough understanding of green design and construction concepts, materials and practices. Burkholder has been with Horst Construction for five years and currently manages residential, commercial and wind-energy projects. A resident of Leola, PA, Burkholder has been in the construction field for over 18 years.

LEED is a voluntary, consensus-based national rating system for developing high-performance, sustainable buildings. Horst Construction is a member of the U.S. Green Building Council and the Green Building Association of Central Pennsylvania.
