Yerkes earns LEED energy/environmental accreditation in “green” design and construction

LANCASTER, Pa. — Mark Yerkes, a project manager for Horst Construction, has earned certification as a Leadership in Energy and Environmental Design (LEED) Accredited Professional from the U.S. Green Building Council.

In becoming a LEED AP, Yerkes has demonstrated a thorough understanding of green design and construction concepts, materials and practices. Yerkes has been with Horst Construction for 11 years and currently manages commercial and senior-living projects. A resident of Lancaster, PA, Yerkes has been in the construction field for over 23 years.

LEED is a voluntary, consensus-based national rating system for developing high-performance, sustainable buildings. Horst Construction is a member of the U.S. Green Building Council and the Green Building Association of Central Pennsylvania.

For more information, contact Terry Kile, Horst Construction, at 717.581.9941 or tkile@horstgroup.com.
