

Building What Matters to You.®

PROJECT

Stillmeadow Church of the Nazarene

LOCATION

York, PA

ARCHITECT

Cornerstone Design-Architects

SQUARE FOOTAGE

18,365

FEATURES

A multi-phase project, Stillmeadow Church began as a planting of a small city congregation into the suburbs. They were clear that they didn't need the new church to reflect traditional church architecture. Horst Construction and the designers set out to accomplish their needs in a fresh new look. The resulting project included a multi-purpose room for worship and recreation, administrative offices, gym and classrooms.
