

OFFICE FIT-OUT
SHIRE, INC.

Building What Matters to You.®

PROJECT
Shire, Inc. Fit-Out

LOCATION
Wayne, PA

ARCHITECT
STV, Inc.

SQUARE FOOTAGE
200,000 Square Feet

FEATURES
The Shire project required high-quality work in a very tight time-frame. The project consisted of over 200,000 square feet of interior demolition and renovation of two large office buildings and construction of a skyway bridge connecting each building. Dozens of Horst Construction employees logged thousands of hours, including many hours of overtime, to maintain a schedule that was very aggressive for a project of this magnitude.
